Service is delivered over a 4G connection via the stated carrier(s). Business Hours support (08:30 to 18:00 Monday to Friday).

Data allowance cap for our Primary and Pre-Full Fibre services are network dependent: O2 and Vodafone – 650GB, Three – 500GB. If 500Gb or 650Gb (network dependent) of data is consumed in 2 separate months in a 6-month period we reserve the right to investigate whether the SIM is being used for non-standard purposes. In these circumstances we reserve the right to adjust the tariff or terminate the agreement.

Glide's Mobile backup service includes a committed data allowance of 2GB per month, with a fair usage threshold of 150GB per calendar month, as monitored through Glide's mobile management platform. If a customer exceeds the 150GB fair usage threshold, an initial warning may be issued. Should the customer exceed this threshold again in the immediately following month, Glide reserves the right to apply excess usage charges.

Excess data usage will be charged at a rate of £0.02 (2 pence) per megabyte (MB), exclusive of VAT. For illustrative purposes, a customer who uses 160GB in a given month (i.e. 10GB over the fair usage limit) would incur an excess charge calculated as follows: 10,000MB × £0.02 = £200 (excluding VAT). Excess usage charges shall not apply where the overage is directly attributable to a breach of the Service Level Agreement by Glide.

\*Glide's 4G back-up service has a committed 2Gb data allowance, with a 'fair usage' limit of 150Gb per month, as monitored via our mobile platform.

Customers exceeding this limit are issued an initial warning. Exceeding this limit for a second consecutive month will incur a charge for the excess amount.

Excess charges apply at the rate of £0.02 (2p) per Mb per month (exc VAT). For example, a customer who uses 160Gb in that month will receive a charge as follows: £0.02 (2p) x 10,000Mb (10Gb excess) = £200 (exc VAT). Excess charges will not apply where the overage results directly from a Glide breach of the Service Level Agreement. \*\* Price excludes VAT and is subject to survey (excess construction charges may apply).

If 500Gb or 650Gb (network dependent) of data is consumed in 2 separate months in a 6-month period we reserve the right to investigate whether the SIM is being used for non-standard purposes. In these circumstances we reserve the right to adjust the tariff or terminate the agreement.

\*Glide's 4G back-up service has a committed 2Gb data allowance, with a 'fair usage' limit of 150Gb per month, as monitored via our mobile platform. Customers exceeding this limit are issued an initial warning. Exceeding this limit for a second consecutive month will incur a charge for the excess amount. Excess charges apply at the rate of £0.02 (2p) per Mb per month (exc VAT). For example, a customer who uses 160Gb in that month will receive a charge as follows: £0.02 (2p) x 10,000Mb (10Gb excess) = £200 (exc VAT). Excess charges will not apply where the overage results directly from a Glide breach of the Service Level Agreement.

\*\* Price excludes VAT and is subject to survey (excess construction charges may apply).

Glide Voice: Unlimited calls to UK landlines and mobile – inbound and outbound, 5 international destinations free.

Glide Cloud Voice: 2000mins/month UK landline & 2000mins/month to UK mobile.

- The threshold is applied at the company level, not at the level of the individual subscriptions. For example, if a company has 4 subscriptions, it will get up to 8,000 free minutes which can be pooled across any of the individual subscriptions.
- Where a customer has exceeded these conditions, they will be notified by Glide and advised that further overages will result in additional charges added to their standard monthly bill.
- If notified by Glide but the customer continues to exceed these conditions, all usage during the month for the company will be charged at the following rates:
